

U3A WYNYARD RISK ASSESSMENT FORM

Activity	Location/s	Tutor	Date	Signature/s

Potential Hazard	Severity: How serious are the consequences likely to be? Rate 1(L)-3(H)	Likelihood: How likely is it for the event to happen? Rate 1(L)-3(H)	Risk Level High Medium Low Rate 1(L)-9(H)	Describe the steps taken to avoid, lessen or eliminate the risk

How to estimate overall risk level

1. List the hazards you are aware of
2. **Severity** -Rate the hazard according to severity of consequence. **3= fatality; 2=Major injury or health issue; 1=Minor injury**
3. **Likelihood** -Rate the hazard according to the likelihood of it happening. **3=likely; 2=possible; 1=remote**
4. **Risk level** -Multiply severity by likelihood to get level of risk. **9 is high risk and 1 is low risk**
